5. Program V Međunarodnog susreta bibliotekara slavista u Sarajevu

VRATITI KORISNIKE BIBLIOTEKAMA

Ovogodišnji peti jubilarni susreti bit će posvećeni njegovom veličanstvu korisniku i njenom veličanstvu korisnici, dakle onima zbog kojih i postojimo. I dok smo na prvim Susretima upoznavali zbirke i njihov razvoj (Balkan je upoznao zbirke u svijetu i Balkan se predstavio svijetu), na Drugim smo razgovarali o budućnosti slavističkih zbirki i fondova. Treći je imao akcent na primjeni savremenih tehnologija u bibliotekama i digitalizaciji bibliotečke građe, a Četvrti je fokusiran na prezentiranju primjera najboljih praksi u oblasti koje se čine ključnim za razvoj bibliotečke djelatnosti: finansiranje biblioteka, saradnja sa drugim institucijama i pitanje kadrova u bibliotekama. Tema V Međunarodnog susreta bibliotekara slavista u Sarajevu nametnula se kao logičan slijed prethodnih, jer je vrijeme da biblioteku pogledamo i „izvana“, dakle iz perspektive korisnika bibliotečkih usluga.

Razvoj informacijskih znanosti, uvjetovan dakako napretkom tehnologije, uticao je i na biblioteke i na bibliotekare koji su se odavno odvojili od tradicionalnog načina rada i prešli na savremene metode bibliotečke teorije i prakse. Kako je pred bibliotekama i bibliotekarima sada nova uloga u posredovanju između korisnika i informacionog okruženja, tako je i pred korisnicima zadatak da stiču i usvajaju nova znanja kako bi se prilagodili modernim okvirima bibliotečke djelatnosti. Stoga ćemo na predstojećim susretima pokušati odgovoriti na pitanja koja se dotiču korisnika, i to:

- Ko su korisnici danas?
- Da li su se njihove potrebe promijenile u zadnja dva desetljeća?
- Koliko su nove tehnologije uticale na njihovu percepciju biblioteke?
- Šta korisnici žele od nas (bibliotekara)?
- Šta bibliotekari mogu ponuditi danas?
- Koja je razlika u tipu, kvaliteti i obimu usluga danas u odnosu na jučer?
- Šta nam to donosi korisničko sutra?
- Da li zaista postoji Biblioteka 2.0?
- Kakav je anticipirani odnos između Bibliotekara 2.0 i Korisnika 2.0?

5. Program V International Convention of Slavic Librarians in Sarajevo

Sarajevo:

Bringing the User Back

This year's jubilee convention will be dedicated to his/her majesty – the user, or to say, to those for whom we as librarians exist. On the first convention we learned about the collections and their development: the Balkan met the collections of the world and introduced itself to the world. On the second convention we talked about the future of Slavic collections, while the third convention had its accent on the digitalization of the collections and on application of new technologies in library environment. Fourth convention was dedicated to presentation of best practices in the field that is crucial for the development of librarianship – financing, cooperation with other institutions and staffing issues in libraries. Topic of this Fifth Convention is logical consequence of previous ones, it is time to take a look into the Library from outside – from perspective of our users.

Development of information sciences conditioned by advancement in technology field have impacted libraries and librarians, who have already “distanced” from traditional way of doing “library business” and now are confronted with new methods of dealing with world of information. Libraries and Librarians are now challenged by new ways of content delivery in information environment, but – Users are also challenged to learn and acquire necessary skills to adjust to new Information landscape. During this convention we will try to answer questions related to user today:

Who are the Users Today?

Have their needs changed during last two decades?

How new technologies impacted their perception of Libraries?

What users want from Librarians?

What Librarians can offer today?

What is the difference in quality and scope of services today compared with those that we have offered “yesterday”

What brings us tomorrow?

Library 2.0: Does it really exist?

What is anticipated relation between Librarian 2.0 and User 2.0?

During second part of the Convention in Fojnica, libraries of religious communities in Bosnia and Herzegovina will be presented.
